

DEE PEARLS

Where Nature Becomes Luxury

Collection

Blanca

The language of light. Blanca explores the quiet elegance of white marble in its purest expressions. From luminous surfaces to softly nuanced tones, it creates spaces defined by clarity and calm. These whites amplify light, opening interiors with a sense of effortless refinement. Architectural yet delicate, Blanca forms the canvas upon which design unfolds. A timeless palette where purity becomes presence.

Capuchin

Warmth, refined. Capuchin reveals the natural warmth of beige and cream marble tones. Soft, layered hues introduce depth and intimacy into architectural spaces. These shades create interiors that feel composed, welcoming, and quietly luxurious. Balanced between earth and elegance, Capuchin harmonizes effortlessly with wood, metal, and contemporary textures. A palette shaped by warmth, designed for timeless living.

Grigio

The elegance of grey. Grigio expresses the modern sophistication of grey marble in all its subtle variations. From pale ash to deeper tonal movement, it brings structure and quiet drama to a space. The palette offers a refined foundation for contemporary design and architectural contrast. Controlled, confident, and enduringly elegant, Grigio defines interiors that embrace modern luxury. A statement made through restraint.

Spectra

Light captured in stone.

Spectra unveils the extraordinary world of onyx. Translucent, luminous, and naturally expressive, these stones reveal layers of colour and movement shaped over millennia. When illuminated, Spectra transforms surfaces into living works of art. Each slab is singular, dramatic, and deeply captivating. A collection created for spaces that celebrate rarity and light.

Rareform Exotics

Nature, at its most extraordinary.

Rare Form Exotic brings together exceptional Brazilian quartzites known for their remarkable strength and striking natural beauty. Formed deep within the earth, these stones combine durability with dramatic patterns and vibrant mineral tones. Each slab is unique — a statement of nature’s artistry and geological time. Rare Form Exotic is curated for projects that demand both performance and visual distinction. Where rarity becomes architecture.

Finishes

The art of surface.

Explore the tactile dimension of natural stone. Through techniques such as honed, matte, brushed, leather and textured surfaces, the character of each material is transformed and refined. These finishes reveal new depth, softness, and movement within the stone. Light interacts differently with every surface, creating subtle variations in tone and texture. A collection that celebrates craftsmanship and the sensory beauty of stone.

The Company

The House of Dee Pearls

Five decades of stone, craft, and legacy. For nearly five decades, Dee Pearls has been among India's most distinguished importers and curators of natural marble. Built on a foundation of trust, expertise, and an enduring passion for stone, the company has grown into one of the country's leading marble houses.

Our journey is rooted in craftsmanship. At our marble processing facility in Kishangarh — equipped with state-of-the-art machinery and precision technology — every slab is carefully processed to meet the highest standards of quality and finish.

Over the years, Dee Pearls has had the privilege of supplying natural stone to some of India's most prestigious projects. From private residences of leading industrialists to landmark corporate headquarters and renowned luxury hotels, our materials have shaped spaces defined by excellence.

Today, Dee Pearls continues to work closely with architects, designers, and developers across the country, bringing together the finest stones from around the world and transforming them into enduring architectural statements.

The Journey

Five decades shaped by stone. The story of Dee Pearls began in 1979, with a modest yet determined venture in marble rocks. Built on dedication, craftsmanship, and a deep understanding of natural stone, the foundation of the company was laid during a time when the industry itself was still evolving in India.

By the early 1990s, the vision expanded beyond domestic stone. Dee Pearls entered the world of imported marble, bringing exceptional materials from across the globe to Indian architecture and design. As demand for precision and quality grew, the company took the next significant step in the early 2000s with the establishment of advanced marble processing facilities. Equipped with modern technology, these units enabled Dee Pearls to refine stone with greater accuracy and craftsmanship.

Today, nearly five decades later, that journey has evolved into Dee Pearls India — a house dedicated to the curation, processing, and supply of some of the world's most exceptional natural stones.

A legacy built on trust.

A journey shaped by stone.

FORTURA™

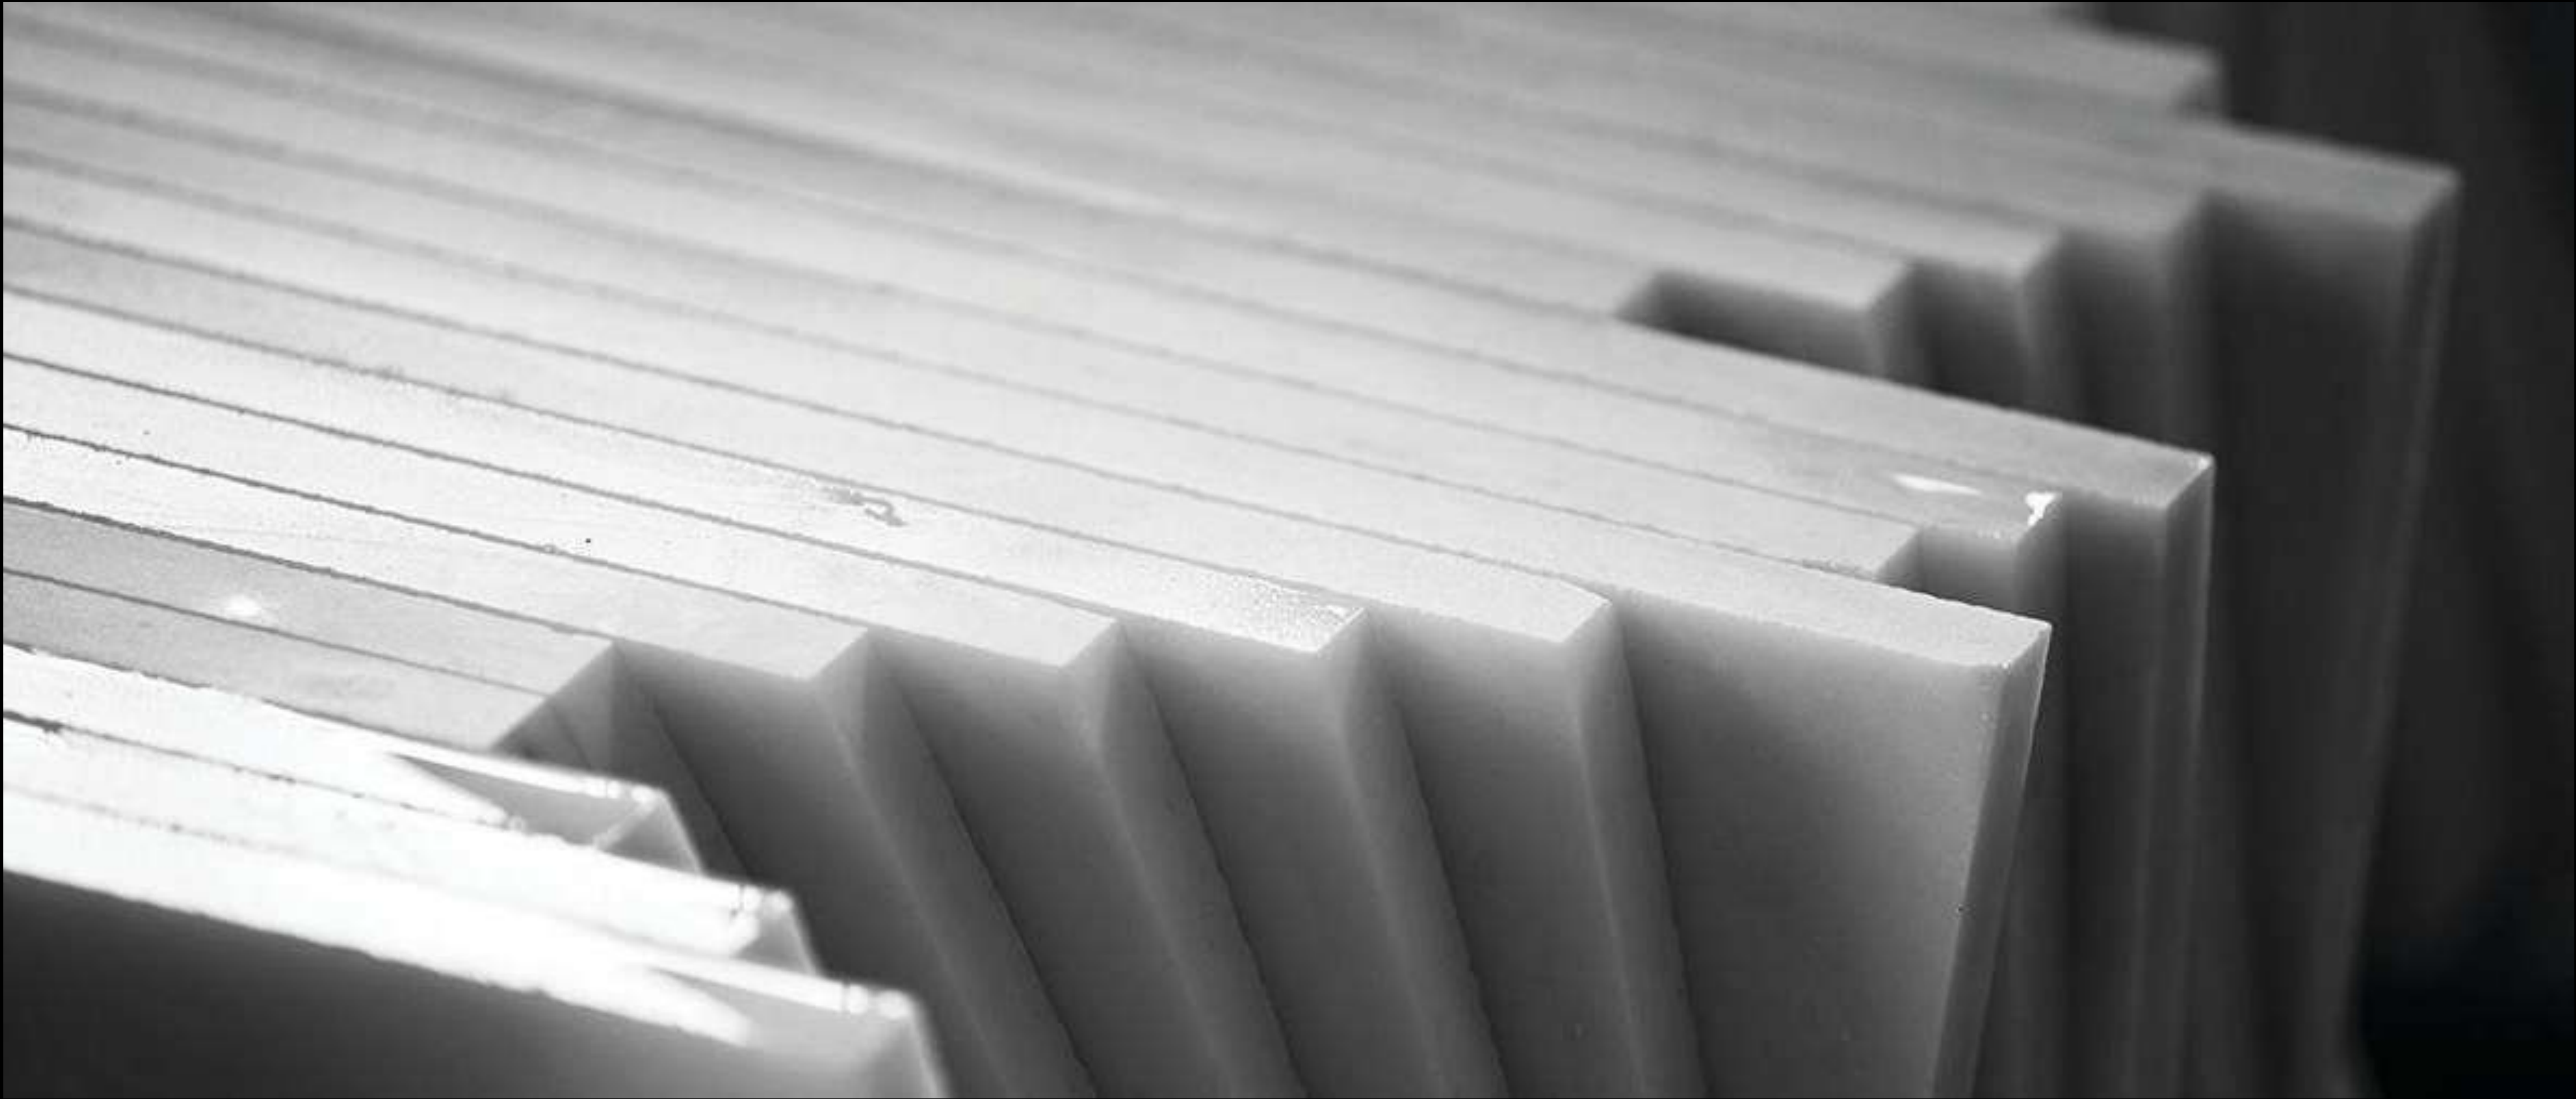

State of the Art Marble Protection

Stone, strengthened for the future.

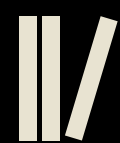

FORTURA represents Dee Pearls' commitment to enhancing the natural strength and longevity of marble through advanced processing and precision craftsmanship.

At our state-of-the-art processing facility in Kishangarh, every slab undergoes carefully engineered treatments using modern machinery, specialized resins, and advanced techniques designed to reinforce the structural integrity of the stone.

This process stabilizes the marble, enhances its durability, and prepares it to withstand the demands of modern architecture and everyday use.

FORTURA is more than a process — it is a philosophy. A belief that the beauty of natural stone should not only be preserved but strengthened for the future. Through FORTURA, Dee Pearls ensures that every surface retains its elegance, performance, and longevity for generations to come.

New Delhi

A world of Stone awaits.

A network designed for access, experience, and scale.

Dee Pearls operates a strong and integrated presence across Delhi, created to serve architects, designers, and clients with ease and efficiency.

Our Rajouri Garden showroom stands as a long-established destination where clients explore a curated selection of premium natural stones in an elegant retail environment.

Expanding this vision, our Mayapuri Experience Centre and showroom brings together display, consultation, and a large-scale warehousing facility under one roof — allowing clients to experience and select from an extensive range of marble and natural stone.

To support project requirements and timely supply, Dee Pearls also operates two additional warehouses in Mayapuri, ensuring substantial inventory and seamless availability.

Complementing these facilities is our dedicated polishing and sampling unit in Mayapuri, where stones are prepared, finished, and sampled to meet the specific needs of architects and designers.

Together, these facilities form a comprehensive ecosystem — enabling Dee Pearls to deliver both inspiration and scale to projects across the country.

Across The Globe

A world in search of extraordinary stone.

At Dee Pearls, the journey of every stone begins long before it reaches our showrooms. Across continents and quarries, we travel the world in pursuit of materials that embody character, rarity, and natural beauty. Today, Dee Pearls sources marble and natural stone from over 30 countries, building long-standing relationships with quarries and suppliers across Europe, South America, Africa, and Asia. What defines this journey is personal involvement. Dee Pearls family personally visit quarries, inspect blocks, and carefully select materials that meet our uncompromising standards of quality and aesthetics. Each block is chosen not simply as a commodity, but as a piece of nature’s artistry — one that will eventually shape a home, a space, or an architectural landmark. It is this hands-on approach to sourcing that allows Dee Pearls to curate a collection of stones that is both globally exceptional and deeply personal.
